

Documentation Index

This directory replaces the earlier ad hoc planning notes with a maintainable documentation set aligned to the current implementation.

Attribute	Value
Document Family	UAIL IT Dashboard controlled documentation
Status	Internal review
Classification	Internal
Owner	Tech-Unit IT
Effective Date	2026-07-17
Review Cycle	On major release or architecture/security change

Document Set

- [Document Register](#)
- [Product Requirements Specification](#)
- [Architecture and Design](#)
- [Information Security](#)
- [Operator User Manual](#)
- [Admin User Manual](#)
- [Deployment Guide](#)
- [Executive Summary Pack](#)

Visual Assets

- [Operator login](#)
- [Operator dashboard](#)
- [Admin overview](#)
- [Admin sessions](#)

PDF Exports

- Generated PDFs are placed under `docs/pdf/`
- Regenerate them with:

```
node docs/tools/export-markdown-pdfs.mjs
```

Current Scope

- Primary wallboard target: `1920x1200`
- Secondary desktop target: `1920x1080`
- Alternate responsive layout for tablet and mobile browsers
- Single deployed Next.js application with separate operator and admin front doors
- SQLite remains the active runtime store
- PostgreSQL remains an optional mirror and control-plane store

Superseded Notes

The old `guide_next/` working notes were useful during iterative delivery but are no longer the canonical project documentation. This folder should be treated as the maintained source of truth for design, usage, deployment, and security guidance.
