Deployment Guide	UAIL-ITDASH-DEP-001	Windows deployment and runtime topology guidance	Infra, deployment owners	Markdown
Executive Summary Pack	UAIL-ITDASH-EXE-001	Management-level summary for review and presentation	Leadership, auditors, reviewers	Markdown, HTML, PDF

Review Notes

- This documentation baseline is derived from the current code and running application state as of 2026-07-17.
- Screenshots included in the manuals and executive summary were captured from the live local operator/admin surfaces.
- Deployment-specific build/runbooks under `deployment/` remain valid supporting documents but are no longer the primary business-facing documentation set.
